Interested Parties:

On April 19, 2002, the State Engineer issued his decision regarding binding arbitration of a dispute over water between North Ditch Irrigation Company (North Ditch) and Thomas & John Hicken. In that decision the State Engineer directed North Ditch to develop a schedule for the 2002 irrigation season showing the times that the parties would take their water. The State Engineer has contacted North Ditch representatives to check on the status of the irrigation schedule. They committed to file the irrigation schedule by Tuesday, May 14, 2002.

As of May 15, 2002, the State Engineer has not received the irrigation schedule. North Ditch has been given adequate time to develop the irrigation schedule. The Hicken's are entitled to receive their water, therefore, the State Engineer has compiled the attached irrigation schedule. Hicken is hereby directed to take their 2 hours of water, to which they are entitled under Water Right Number 55-1403, commencing at 6:00 p.m. on Wednesday, May 15, 2002 and every 10 days thereafter, as shown on the attached sheet.

Sincerely,

Jerry D. Olds, P.E.
State Engineer
